patches
Contact Your GP Online

PATCHS has been a great success. If you have a non-urgent medical query, a Fit Note request, holiday vaccinations query or medication query, please use our online consultation system PATCHS to contact us.

You can register in just under a minute with just a few simple steps by visiting our website www.longfordstreetmedicalcentre.co.uk or scan the QR code above.

Patients who find it difficult to use PATCHS can call the surgery on 01706 621417 between 2pm - 6pm Monday to Friday. We will not be able to deal with telephone queries outside of these times.

Staff News:

We would like to welcome Amina our new Administrator to the team.

We would also like to welcome to Longford Street our new Trainee GPs Dr Malik, Dr Ahmed and Dr Sundaresan.

NEW PHARMACY FIRST SERVICES

NHS

AVAILABLE WITHOUT PRESCRIPTION

- sinusitis
- sore throat
- earache
- infected insect bite
- impetigo
- shingles
- uncomplicated urinary tract infections in women

Why does the receptionist need to ask what is wrong with me?

- A receptionist connects the patient with the most appropriate service for their needs
- It may be more appropriate to see a different clinician
- The GPs have asked reception staff to ask certain questions when booking to help the smooth running of our clinics.
- It is important to ensure you see the most appropriate clinician.

This can help us save a GP appointment for you when you really need it.

Thank you for your understanding.

RSV Vaccines 2024

Who should have the RSV vaccination?

Everyone turning 75 years old on or after the 1 September 2024 will be offered a single dose of RSV vaccine. This is because older adults are more at risk of serious complications from RSV. You can still get the vaccine up to the day before you turn 80.

For the first year of the programme, the vaccine will also be offered to those who are already aged 75 to 79 years on 1 September 2024 as part of a catch up programme.

We will be contacting all eligible patients. There is no need for you to contact the surgery.

For more information visit [Your guide to the RSV vaccine for older adults - GOV.UK](https://www.gov.uk/government/publications/your-guide-to-the-rsv-vaccine-for-older-adults) (www.gov.uk)

Your guide to the RSV vaccine for older adults

How to protect yourself by having the Respiratory Syncytial Virus (RSV) vaccine

Information on the free RSV vaccine for people who:

- turn 75 years of age on or after 1 September 2024
- are already aged 75 to 79 years old on 1 September 2024

UK Health Security Agency

think measles

It's not just a kids' problem

Teenagers, young adults and anyone who has missed their MMR vaccination can get measles.

Symptoms such as:

- high fever
- rash – sometimes starting around the ears
- sore red eyes
- cough
- aching and feeling unwell

Remember, if it could be measles – they need to be in an area where they cannot pass the infection to vulnerable patients such as the immunocompromised and pregnant women.

Patient Participation Group

Are you interested in joining our Patient Participation Group? We would like to be able to contact you occasionally because we are interested in hearing your views about the surgery, how well we are doing and how we may be able to improve the services we offer you. We can only do this with your help.

All communication will be kept to a minimum and will only take a few moments of your time.

If you would like more information or would like to join up, please take a leaflet from Reception or information is available on our website—

www.longfordstreetmedicalcentre.co.uk

Thank you for your support in helping us improve the service we provide to you.

All personal information received will be handled in the strictest of confidence and in accordance with the Data Protection Act 2018

Email us at gmicb-hmr.longfordreception@nhs.net or visit www.longfordstreetmedicalcentre.co.uk
